This document states, that the above-mentioned property, was subjected to an extensive decontamination procedure as per regulation. This broad-spectrum disinfectant is used by multiple healthcare providers to disinfect surfaces. This cleaning agent consists of N, N-Didecyl-N, N-dimethyl ammonium chloride and other ingredients that are confidential, in order to protect the manufacturer's recipe. The sterilization of the property was achieved by a process of fogging, where the disinfectant is converted to an aerosol spray and applied to all surfaces. This process eliminates all signs of dsDNA, dsRNA and ssRNA viruses.

I, Kevin Raath, certify that the above-mentioned property has been disinfected as per regulation and can confirm that it is suitable for occupancy.
